EDUCATION

Chitkara University	2021-Present
B.Tech in Computer Science, *Rajpura, Punjab*	CGPA: 9.0
Mukand Lal Public School	Graduated: 2021
12th Grade (PCM), *YamunaNagar, Haryana*	CGPA: 8.72

WORK EXPERIENCE

Bharat Intern   Oct 2023 | Remote
Fresher Intern
- Developed a Temperature Converter App
- Utilized React, HTML, CSS, and JS for enhanced website performance and user experience

TECH - PROJECTS

TASKIFY (*August 2023*)   Live Preview | Github
- Engineered a task manager app using **HTML, CSS, and JavaScript, integrating clock** functionality.
- Implemented features for task creation, editing, and deletion to enhance user productivity.
- Ensured seamless performance across devices and browsers, optimizing accessibility.

LEARNHUB (*October 2023*)   Live Preview | Github
- Developed **LearnHub**, the ultimate life and time-saving educational tool, tackling today's educational challenges head-on. 4 vibrant themes with dark mode for user preference. Comprehensive student reports for valuable insights. Integrated planner to stay organized.
- Utilized **MERN** stack.
- Leveraged **Clerk** for user authentication.
- Integrated **100ms** for seamless video calling and conferencing.
- Implemented **Jodit Editor** as a rich text editor for notes and assignments.
- Employed **TailwindCSS** for complete styling and theming.
- Incorporated **NewsAPI** (though can be unreliable at times) to render current affairs.
- Hosted backend dynamically on **Render** and Frontend on **Netlify**.

FULL STACK NOTION CLONE : ZOTION (*November 2023*)   Live Preview | Github
- Developed a dynamic fullstack Notion clone using **Next.js 13** and **React**, integrating a **real-time database** for instant synchronization.
- Implemented **light and dark modes** for an optimal user experience.
- Orchestrated file operations, including **upload, delete, and replacement.** Integrated dynamic icons for real-time document changes.
- Enhanced user experience with a **dynamic, real-time clock** and a fully collapsible sidebar for UI customization.

SKILLS

Programming Languages	JavaScript,HTML, CSS, React ,JAVA
Scripting Languages	Shell Scripting,Python,Bash,Linux
Technologies and Frameworks	Vite,Npm, Postman, SQL
Cloud Technologies	AWS,EC2,S3,Terraform,Docker,Jenkins,Gitlab
Other Interests	Debates,Badminton,Cooking
Soft Skills	Communication,Adaptability,Strong Interpersonal Skills,Analytical Skills
Other Skills	Ability to multi-task under tight deadlines,Effective technical Documentation.

ACHIEVEMENTS

- Acquired expertise in leveraging AI tools for enhanced efficiency and productivity through a be10x certification.
- Earned a certificate in Generative AI for DevOps and Python for DevOps.
- Been selected as the Class Representative from the last 2 years.
- Developed proficiency in Generative AI and its application in DevOps workflows using Python, expanding your DevOps skillset.
- Grabbed a AWS Cloud Practitioner Essential Certificate .
